

# ROOMSURFER

## Roomsurfer is looking for a Webdesigner

### Job description

Our main focus group are students. That's why we believe that students are our most valuable associates to drive the growth of the platform. As a web designer for Roomsurfer you are primarily taking care of our online marketing material and design specials on the website.

### Responsibilities

- designing and building newsletters, landing pages and ads
- helping the product development to visualize ideas
- helping the management and marketing to create keynotes & presentations
- ...provide awesome design for whatever is needed

### Requirements

- at least 20h availability per week
- experience with designing and front end development
- ability to adapt to a certain style and create great things with it
- strong knowledge of common design tools, CSS, HTML
- fluent english skills
- nice to have: experience in backpacking, couchsurfing, erasmus program etc.

### What we offer

- flexible working hours
- a creative working environment and the chance to work on an extraordinary product
- an international and multilingual team
- insights to the vibrant and fast growing startup scene in Berlin

If you are interested in working for an innovative and uprising internet company, please send your CV and some words about why you are the perfect fit for the job to:

***jobs@roomsurfer.com*** or tweet us ***@roomsurfer***

### Adress:

Roomsurfer GmbH  
Neue Schönhauser Str. 8  
10178 Berlin

Tel: +49 1577 3850004

### About

Roomsurfer is an international internet startup with founders from Italy, Japan & Germany.

It's based in Europe's new entrepreneur capital - Berlin.

The platform basically connects private hosts and guests all around the world via intelligent matching algorithms.

Our goal is nothing more but to build a great service for student and youth travel.

We are always looking for amazing people who think beyond the average and are willing to build something great.
